**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Note although mild at lower levels, it will still feel bitterly cold over higher ridges/summits due to strong winds and temperatures only a few degrees above freezing.

Forecast for Wednesday 22 Feb 2023

Weather: Overnight rain and snow soon clearing then drier, brighter for a time. Showers following later in morning, most frequent in afternoon in west of area, falling as snow above about 600m.

Maximum wind: Strengthening northwesterly winds, average speeds of 30mph increasing 40mph with gusts 60mph, possibly 70mph over Cairngorm Plateau.

Chance of cloud-free hill tops above 800m: 50% best in east of area.

Low cloud and visibility: Visibility soon becoming good with brief interruptions to very poor as wintry showers pass by. Extensive cloud cover about 600m at first and as showers pass by, otherwise good cloud breaks developing.

Temperature: **Glens:** Plus 6 Celsius.
At 800m: Plus 3 Celsius falling to minus 2 Celsius in afternoon.
Freezing level: 1000m lowering to 700m in afternoon.
